Release Notes
Version 3.1.0-128

We extend a special thank you to our many users who have provided suggestions and made requests. The new **SmartTime** updates are below:

EP SmartTime video tutorials are available from inside the program from the Help Menu.

What's New?

- **Time Card Enhancements**
  - Updates have been made to ensure accurate breakage per contract for DGA.
  - "Pay Actual" will now allow deduction of a long meal.
  - Mobile Time Cards can now be created for up to 7 weeks in the past.
- **Batch Enhancements**
  - We now capture mobile approvals that come in even after the time card has been submitted in a batch.
  - An Approval column has been added to the Manage Batches grid. This column provides a quick way to see the approvals that come in and will help you know when you can submit the batch.
- **Payroll Edit Report Update**
  There is now an option to export the Payroll Edit Report in Input Order.
